3. Training ~~for Staff and Students~~

Staff training must include detailed instruction on how to respond to a variety of emergency situations. Staff should also be able to recognize and respond to behavior, information, and related indicators that warn of impending problems. In addition, middle and high school employees must receive adequate training on the operation of the school's anonymous safety tip line.

School personnel must teach and review with students (1) safety procedures, including fire safety procedures; (2) precautions for handling chemicals or potentially dangerous equipment; and (3) appropriate responses to threats to school safety. Middle and high school students must also be informed of the anonymous safety tip line and its purpose and function.

Training must be provided annually for all school system stakeholders (including staff, students, parents, coaches, volunteers, and community members) on how to recognize, and how and when to report, threats to the school population or community.

4. Safety Equipment

School employees shall provide students and visitors with safety equipment as required by law and shall enforce school rules pertaining to wearing safety equipment. School employees shall wear and use appropriate safety equipment as required for the safe performance of their specific job assignments.

5. Planning for Emergencies and Conducting Fire Drills and Other Emergency Drills

The board, in coordination with local law enforcement and emergency management agencies, will adopt a school risk management plan relating to incidents of school violence for each school in the school system. The superintendent must provide the Department of Public Safety's Division of Emergency Management (Division) with emergency response information it requests for the school risk management plan and updated emergency response information when such updates are made. The superintendent must also provide the Division and local law enforcement with schematic diagrams, including digital schematic diagrams, of all school facilities and updates of the schematic diagrams when the school system makes substantial facility modifications, such as the addition of new facilities or modifications to doors or windows. Schematic diagrams must meet any standards established by the Department of Public Instruction for the preparation and content of the diagrams. In addition, the superintendent shall provide local law enforcement with (1) either keys to the main entrance of all school buildings or emergency access to key storage devices for all school buildings and (2) updated access to school buildings when changes are made to the locks of the main entrances or to the key storage devices.
