

ADMINISTERING MEDICINES TO STUDENTS

provided by anti-discrimination laws, including Section 504 of the Rehabilitation Act of 1973 and the Americans with Disabilities Act.

- d. Except as permitted by this policy, no student may possess, use, sell, deliver, or manufacture any drug or counterfeit drug prohibited by policy 4325, Drugs and Alcohol, nor be under the influence of any drug in violation of that policy.
- e. The board generally encourages school personnel to administer medication from a centralized location. However, in all instances, whether administered from a centralized location or multiple locations, any medications kept at school for a student must be kept in a locked and secure place. An exception to the requirement for locked storage may be made for emergency medications that must be immediately accessible. Access to controlled substances should be limited to the school nurse, school staff person authorized to administer medication, and the principal or designee.
- f. All school personnel who will be administering medications must receive appropriate training.
- g. Only medications clearly prescribed for the student may be administered by school personnel. At the time a parent brings a medication to school for administration, if school personnel have concerns regarding the appropriateness of the medication or dosage for a student, a confirmation should be obtained from the student's health care practitioner or another health care practitioner prior to administering the medication or allowing a student to self-administer the medication.
- h. Although efforts should be made not to disrupt instructional time, a parent has the right to administer medication to his or her child at any time while the child is on school property, unless otherwise prohibited by this policy.
- i. Written information maintained by school personnel regarding a student's medicinal and health needs is confidential. Parents and students must be accorded all rights provided by the Family Educational Rights and Privacy Act and state confidentiality laws. Any employee who violates the confidentiality of the records may be subject to disciplinary action.

B. EMERGENCY M

be administered by school personnel while the student is at school, at a school sponsored activity, and/or while in transit to or from school or a school-sponsored event.

C. STUDENT SELF-ADMINISTERING MEDICATIONS

The board recognizes that students with certain health conditions like diabetes or asthma, or an allergy that could result in an anaphylactic reaction, may need to possess and self-administer medication on school property in accordance with their individualized health care plan or emergency health care plan.

Students are prohibited from self-administering medication at school unless (1) the medicine has been prescribed for the treatment of diabetes, asthma, or anaphylactic reactions, including insulin or a source of glucose, a prescribed asthma inhaler, or a prescribed epinephrine auto-injector; (2) the medicine is administered in accordance with the student's individualized health care plan or emergency health care plan and any relevant administrative regulations; and (3) the requirements of this section are met. The superintendent shall develop procedures for the possession and self-administration of such medication by students on school property during the school day, at school-sponsored activities, and/or while in transit to or from school or school-sponsored events.

1. Authorization to Self-Administer Medication

Before a student will be allowed to self-administer medication pursuant to this subsection, the student must provide to the principal or designee all of the documents listed below:

- a. The student must provide a written authorization from the parent/guardian and self-administer the medication;
